

More time for development

Improved CAx data for greater speed and cost-efficiency. Quality assurance early in the product development process saves time and allows you to tap into new potential for savings.

DOCUFY® CAx QUALITY MANAGER

- > **Increased Efficiency**
thanks to a high level of **standardization** and **methodization**
- > **Competitiveness**
thanks to optimized manufacturing costs
- > **Reduced tool variety**
thanks to **mass data analysis** in batch operation
- > **Meeting deadlines**
by avoiding iteration cycles
- > **Best practice checks**
immediately usable, including **full integration** into NX of Siemens PLM software
