

# 90-day package

Faster and more cost-effective through better CAx data. Use our attractive package offer to evaluate saving potentials in your company.

**Ready to use after 2 days.**

## Your benefits

- > 90 days unlimited company-wide use of all check routines and functions
- > Competent advice on compliance with guidelines from construction, production, assembly and procurement
- > Development of workflow strategies on the basis of long-term experience with existing customers
- > Evaluation of your savings potential on the basis of your processes, data and CAx/PLM system landscape

## The implementation

- > Forming a project team consisting of your project manager and one of our experienced consultants
- > Joint implementation of the installation and the basic-customizing
- > Conclusive system tests

Best practice checks are ready for immediate use with full integration in Siemens NX PLM Software.

# DOCUFY® CAx QUALITY MANAGER
