COSIMA – The Component Management System

DOCUFY®
COSIMA

Your challenge

Are you facing the challenge of documenting more and more product variants on paper, online or on mobile devices in a shorter period of time with an increasing variety of languages? Are you looking for an editorial system that fully meets your current requirements and at the same time is ready for future developments?

Our solution

COSIMA is the advanced Component Content Management System (CCMS) for your documentation processes that is ready for immediate use and can be adapted to your needs at any time - whether for mechanical and plant engineering, measurement and control technology, medical technology or automotive. With the CCMS COSIMA, professional writers succeed in capturing their technical communi-cation in the highest quality in a process-optimised manner and publishing it in all languages, formats and target systems.

Your advantages:

> **Fast return on investment:** Thanks to the preconfigured, ready-to-use solutions, you're able to start working productively after just a few days

> **Cooperative and global:** Cooperate without any problems in globally distributed editorial offices around the world

> **Easy and efficient:** Complete all editorial activities with an intuitive user platform

> **Compliant with guidelines and standards:** Use documentation structures in accordance with current technical standards

> **Reliable:** Benefit from our technical and industry-specific know-how as well as our valuable practical experienc

> **Adaptable:** Scale almost without any limits – for long-term security and a high level of investment protection

Fit for the future

Your innovative product and service ideas require extraordinary documentation solutions that can no longer be achieved with a pure standard system?
No problem: COSIMA can be flexibly adapted and expanded to meet your requirements. Customer-specific information models can be configured effortlessly, inventory data and existing data structures are simply adopted.

DOCUFY develops high-quality software solutions for technical documentation, design, and service. From technology startups to global industrial groups - our more than 900 customers operate in the automotive industry, mechanical and plant engineering, medical technology, and the software sector. Over 140 employees have been contributing to DOCUFY's sustainable success with their expertise for over 25 years.

We offer consulting and development services for our software products in order to customize our standard solutions to the specific requirements of our customers. With the DOCUFY Suite, we have created solutions to tap into the potential of company-wide information and deliver it to specific users. From design to maintenance - throughout the entire product life cycle: **Excellent Information. Everywhere.**
