

DOCUFY Machine Safety - Risk assessment made easy

Your challenge

Do you want to simplify, speed up and improve legally compliant preparation of risk assessments for CE marking? Furthermore, you want to set up your risk assessment according to your preferred assessment procedure?

DOCUFY[®] MACHINE SAFETY

Our solution

DOCUFY Machine Safety is the special software that enables you to meet the requirements of the Machinery Directive comprehensively and efficiently. The risk assessment can be carried out in accordance with EN ISO 12 100 or in accordance with requirements templates. This may be followed by the assessment of the Machinery Directive and the ATEX Directive or the Low Voltage Directive.

Your advantages:

- > **Global:** Cross-site and internationally applicable
- > **Secure:** Data security through a central database
- > **Adaptable:** Adaptable to your specific needs
- > **User-friendly:** Automatic output of the overall assessment as a supporting document
- > **Up-to-date:** All information needed for the preparation of the legally compliant risk assessment is stored in the system
- > **Fair:** 30-day free trial

Fit for the future

In the event of damage, risk assessment is an essential document with which the manufacturer can and must demonstrate the CE conformity of the product. DOCUFY Machine Safety covers all common procedures and leads through the process of risk assessment in accordance with the law and your needs. The proof documents created with DOCUFY Machine Safety thus guarantee maximum safety and can avert existential business risks in the event of damage.
