Your tool
to design

“With DOCUFY Layouter, we are giving customers the ability to adjust their layouts on their own whenever they need to.”

Dominik Haag, Head of Software Development, DOCUY GmbH.

Multi-Level Documentation

DOCUFY[®] LAYOUTER^R

The tool for effortlessly designing and adjusting layouts.

Use DOCUFY Layouter to provide your content with the perfect frame, individually, easily and intuitively – whether as a technical writer in your own company or as a documentation service provider for clients.

Your business:

You want to create output layouts for your own PDFs and online media, adjust them when needed and manage them effortlessly, which is why you are looking for a ready-to-use, easy-to-operate software solution that you can use to easily make and save your own changes to the design.

Our solution:

You can use DOCUFY Layouter to put the finishing touches on your publication. Its intuitive interface lets you generate and manage as many layout specifications as you like and use them for different output-layouts. Carry out your own individual changes to the cover page, document content, as well as headers and footers, and save them for the future.

Fit for the future:

Customized documentation requires adjustable layouts. DOCUFY Layouter lets you stay open to new ideas and also ensures a consistent appearance of your published documents.

"Sudden changes to corporate design are not a problem - everything can be adjusted in just a few clicks."

Any technical writer can operate the intuitively designed web interface with minimal training.

Norman Steinmeier,
Software Developer DOCUFY GmbH

DOCUFY[®]

Multi-Level Documentation

DOCUFY[®] LAYOUTER

Your advantages at a glance:

Quick & easy

- An intuitive, user-friendly web interface to easily create and design all output layouts
- Ready-to-use cloud solution without installation or internal IT input
- Software automatically updates to the latest version and migration of existing layouts is guaranteed

Efficient & cost-saving

- Layouts can be created independently with just minimal training
- Easy design of layout variants due to time-saving inheritance concept
- Stylesheets generated in DOCUFY Layouter can be loaded directly into COSIMA and TopicPilot*
- Minimal administrative effort on ongoing operations

Secure & reliable

- Cloud-based web interface is accessed via a secure browser connection
- A sophisticated rights concept regulates access to layouts and protects them from unauthorized use
- Due to the strict separation of layout and data, content remains in its protected environment and does not have to be transferred to the cloud
- Ability to load test documents into DOCUFY Layouter to perform quick layout tests

Adjustable

- Freely design title and cover pages
- Define page and column formats according to your preferences
- Format document content and define elements such as fonts, line spacing and table formats
- Flexibly adjust the way that security and warning information is presented within the legal framework
- Design headers and footers in just a few clicks

*Please take note of the system requirements for using DOCUFY Layouter.

DOCUFY® LAYOUTER

Adjust title pages and cover pages

DOCUFY Layouter allows you to effortlessly design complete layouts. It allows you to easily lay out title and cover pages, document content, and headers and footers.

Create your title page the way you like it: for example by positioning or changing the logo or by adjusting the type, color or size of the font.

Adjust document content

2.2 Connect and disconnect

In brief
You will learn how to connect and disconnect from the COSIMA rich client.

1. Start the COSIMA rich client.
2. Click on the symbol  or select "CMS" > "Connect" from the menu.

WARNING!
Locking your account
If you log-in using a false password *three times* your account will be locked.
- To unlock your account, please contact your system administrator.

3. Insert your user name and password.
4. Click on "Connect".
⇒ You will be logged on to the Editing system and your personal working area will be displayed.

Tab. 1: Overview of default users:

User name	Password

DOCUFY®

Multi-Level Documentation

DOCUFY[®] LAYOUTER

DOCUFY knows the processes behind technical documentation thanks to its years of experience in the field. We look to the challenges and responsibilities that writers face in their everyday work for guidance when enhancing and adding features to our Software – because we know that things change.

It is important to us to provide you with maximum flexibility in the creation of your documentation, such as in matters of corporate design and layout.

<added value>

Ready for the next level
of documentation!

</added value>

Businesses only make use of 20% of the potential that documentation holds in store.

Traditional print media is making way for digital media, and conventional documents are evolving into a series of topics. DOCUFY is your partner for seizing the potential added value. Our product portfolio makes your technical documentation accessible in ways that go beyond its original use. The valuable information units (topics) that your writers create are organized on different levels, making them available anytime, anywhere, and in a manner perfectly suited to the specific purpose. That's what we call Multi-Level Documentation.

Technical documentation upgrade to the next level of added value.

The previous single-level documentation is becoming multi-level, allowing all company departments, divisions and units to use your technical documentation content. You benefit from an Information Space that is filled using editorial DOCUFY basic technologies and is connected to various applications using the DOCUFY key technology TopicPilot.
